### 2. Curriculum

A wide variety of courses are offered, including:

- (1) Elementary to advanced Chinese courses
- (2) Advanced Training Course (Chinese Special Studies)
- (3) Teacher Training Course
- (4) HSK 1-6 Course

### 3. Methods of course delivery

We will use a combination of three methods:

#### (1) Live streaming:

Use the live streaming platform and software for online teaching, real-time interaction between teachers and students, and instant feedback of questions. Each live lesson has a video of the course, and students can watch the video within the specified time. Each course has two live streaming sessions, and students in different time zones can choose the time that suits them.

Available Study Duration	Beijing Time
Duration A	8:00-10:00
Duration B	16:00-18:00

(2) **Recording method:** Click the URL link of the teaching platform or video website to watch and learn the course video. Course videos can be played repeatedly and paused at any time, and students can arrange their learning time independently. Course videos can be played on the mobile client, which is convenient for students to learn in different places and using fragmented time.

(3) **Live streaming + recording method:** Students can learn the contents of the recorded and live streaming lessons by themselves, and then participate in the live broadcast lessons, follow the teacher on-site practice, and communicate with classmates in real time.
